Learn How To Sell Website & Software Solutions With Confidence

WELCOME TO RE-IMAGE

RE-IMAGE Business Solutions helps businesses modernize through websites, software systems, AI automations, customer portals, and business management solutions.

As a sales partner, your role is not to build websites or software.

Your role is to:

- Find businesses that need help
- Start conversations
- Identify problems
- Recommend solutions
- Book consultations

RE-IMAGE handles the development, setup, and technical work.

UNDERSTANDING SALES

Sales is not about pressuring people.

Sales is about helping businesses solve problems.

Businesses buy when:

- They trust you
- They understand the value
- They believe the solution helps them

The best salespeople listen more than they talk.

UNDERSTANDING BUSINESS OWNERS

Many business owners are busy and overwhelmed.

Common problems include:

- No website
- Outdated website
- Poor communication systems
- Manual booking processes
- No automation
- Losing customers online
- Missing calls or messages

Your goal is to identify problems and connect them with the right solution.

THE RE-IMAGE SOLUTIONS

RE-IMAGE provides:

- Professional websites
- Booking systems
- Customer portals
- QR-code systems
- AI automations
- Payment integrations

- CRM systems
- Business dashboards
- Lead capture systems

HOW TO START CONVERSATIONS

SIMPLE OPENERS:

“Hey, I came across your business and wanted to ask if you currently have a system helping manage customers online?”

“We help businesses modernize their websites and operations.”

“Do customers currently book or contact you online?”

The goal is to start a conversation naturally.

HOW TO BUILD CONFIDENCE

Confidence comes from preparation.

Learn the services.

Practice speaking.

Practice conversations.

Learn common business problems.

You do not need to know coding.

You only need to understand:

- What problem exists
- Which solution fits
- How to explain the value simply

HOW TO QUALIFY LEADS

Ask questions like:

- Do customers book online?
- How do customers contact you?
- Are you tracking leads?
- Are you using automation?
- Do customers ask for updates often?
- Do you currently have a website?

Questions help uncover pain points.

SELL THE OUTCOME

Do not focus only on features.

Instead of: “This has AI automation.”

Say: “This helps reduce manual work and saves time.”

Instead of: “This includes a portal.”

Say: “This gives customers a more professional experience.”

HOW TO HANDLE OBJECTIONS

Common objections:

“I already have a website.”

Response: “That’s great. Many businesses still upgrade to improve customer experience and automation.”

“I need to think about it.”

Response: “Absolutely. I’d love to schedule a quick consultation so you can see what’s possible first.”

FOLLOW-UP IS EVERYTHING

Most sales happen after follow-up.

FOLLOW-UP EXAMPLES:

“Just checking in to see if you had any questions.”

“We recently helped another business improve their systems and online presence.”

Consistent follow-up builds trust.

YOUR INCOME OPPORTUNITY

Example earnings:

Tier 1 → \$89.80

Tier 2 → \$119.80

Tier 3 → \$199.80
